**RE: OMA-SEC Security Common Functions**

Dear Michel,

It has come to the attention of 3GPP2 TSG-S WG4 (Security) that your technical working group is working on a work item dealing with security common functions. WG4 would like to point out that 3GPP2 has developed some specifications that could meet your needs with respect to this work item. As a basis for OMA-SEC's Security Common Functions, we suggest that you consider reusing the relevant cryptographic functions contained in S.S0055, Enhanced Cryptographic Algorithms and S.S0078, Common Security Algorithms. The URL location of the above files is:

[http://www.3gpp2.org/Public\\_html/specs/tsgs.cfm](http://www.3gpp2.org/Public_html/specs/tsgs.cfm)

Files:

- S.S0055-A v2.0 \* Enhanced Cryptographic Algorithms (2005/02)
- S.S0078-A v2.0 \* Common Security Algorithms (2005/02)

If you have any questions, please contact Louis Finkelstein, [louis.finkelstein@motorola.com](mailto:louis.finkelstein@motorola.com)

Regards,

Nick Yamasaki  
Chair, 3GPP2 TSG-S
