**Re: Responsibility for the MM10 Stage 3 Specification**

Dear Matthias:

Thank-you for your liaison requesting clarification on the transfer of X.S0016-101, MM10 Interface Based on Diameter Protocol Stage 3. It is our intent to transfer all the MMS work to OMA including the MM10 Stage-3 specification. A recommendation to publish the latest version of all parts of X.S0016 is anticipated out of our January meeting.

Actual publication will then be held at our Steering Committee until resolution of the impediments to our ability to normatively reference OMA documents. Formal transfer of the work to OMA is contingent upon our ability to publish the X.S0016 specifications.

Until such time that the work is formally transferred to OMA, we will update X.S0016 specifications as necessary. We have not yet had an opportunity to adequately address your liaisons regarding Routing Address Resolution (OMA-LS\_0058-Routing-Address-Resolution-20051026-A) and the CRs associated with TS 23.140 (OMA-LS\_0057-Correction-of-Section-3.1.doc). We will update you of our progress in a separate correspondence.

Regards,

Betsy Covell  
Chair, 3GPP2 TSG-X
