Subject: Authorization to use TTCN-3 Code of 3GPP Technical Specification 34.229-3

Dear Sirs,

In response to OMA's liaison statement (Doc#OMA-LS_781) on the usage of TTCN-3 code for IMS-CC that was developed and paid for by 3GPP, which is further defined in the 3GPP Technical Specification 34.229-3 (hereinafter "TTCN-3 code"), and on behalf of the Third Generation Partnership Project (3GPP™), ETSI is pleased to hereby grant you the non-exclusive right to reproduce and to use, free of charge, without any restriction with regards to time or territory, the TTCN-3 code for the purposes of developing standards within OMA, provided that OMA inserts the paragraph provided in the Annex, as due acknowledgement of the source, wherever appropriate and provide an appropriate attribution to the 3GPP TS 34.229-3.

Please note that:

- The Third Generation Partnership Project (3GPP™) is not a legal entity;
- 3GPP TSs are not stable by nature and therefore may be subject to modifications;
- 3GPP TSs are, by nature, intended to be transposed into Deliverables of the regional recognised standards developing organizations.

As a result, the present authorization can only be granted for the TTCN-3 code "as is", without any representation or warranties. In this respect, please be aware that ETSI disclaims any liability to itself, 3GPP or the partners of 3GPP relating to the use of the TTCN-3 code by OMA as authorized hereby.

Further, such authorization is granted on the condition that OMA provides reciprocal access, and authority to use, to 3GPP and its partners of any OMA deliverable that uses or references the TTCN-3 code. For the avoidance of doubt, OMA shall not be entitled to distribute the TTCN-3 code or parts thereof to any other third party, except as part of an OMA deliverable deriving from OMA's standards development activities.

Should the above information fall under patent protection, the present authorization is not to be construed as an authorization to use and/or implement patent information without fulfilling any attached obligations.

Yours sincerely,

Dr. Walter Weigel
Director General

Annex: Acknowledgment of source

Paragraph to be inserted wherever appropriate:

"© 2008. 3GPP™ TSs and TRs are the property of ARIB, ATIS, CCSA, ETSI, TTA and TTC who jointly own the copyright in them. They are subject to further modifications and are therefore provided to you "as is" for information purposes only. Further use is strictly prohibited."
