Overview

This liaison is a response to the received liaison from OMA DM WG as “ Reply LS from OMA-DM on EventLog LwM2M Object”.

oneM2M acknowledges that OMA DM WG has taken the responsibility of defining the Event Log as a generic LwM2M object by setting up a dedicated Work Item. We appreciate the proposal of having a joint session to discuss the draft solution so as to ensure the deliverable can meet the interests of both organizations.

From oneM2M perspective, we would expect the solution provided by OMA can be used as the underlying mapping of oneM2M [eventLog] resource. oneM2M MAS WG is willing to collaborate with OMA DM WG closely in this regard.

Actions

oneM2M MAS WG leadership will coordinate with OMA DM WG leadership to schedule a joint conference call when the initial draft of the Event Log LwM2M Object is ready. The preferred date is before oneM2M TP#31 meeting in September.

The coming oneM2M MAS WG conference call slots are provided below for your reference. OMA DM conference calls can also be considered as the candidate slots.

Conclusion

oneM2M would like to thank OMA DM WG for the liaison and looks forward to continuous collaboration on the related topics.

Next oneM2M meetings

- oneM2M MAS#30.1: Aug 7 (Monday), 2017 UTC 13:00-14:30
- oneM2M MAS#30.2: Aug 28 (Monday), 2017, UTC 13:00-14:30
- oneM2M TP#31 F2F: India, 2017-09-18 to 2017-09-22
