

TestFest Evaluations

1	Box	Which Enabler are you testing - Client or Server
2	0-5	Please rate the overall facilities of the test rooms provided at the Vodafone Lab
3 a,b	0-5	Please rate the LAN /IT Infrastructure provided in the Test Rooms
4 a-f	0-5	Please rate the Host Infrastructure provided in the Test Rooms
5	0-5	Please rate the amount of effort needed to connect to the Host's Infrastructure
6	0-5	Please rate the support provided by the Host's engineers at the event
7	Text	Do you have any General Comments about the Lab/Test Room facilities provided for the event? How could they be improved?
8 a,b	0-5	Please rate the level of catering provide for participants at the TestFest
9	0-5	Please rate the quality of the on-line information provided for the TestFest
10	0-5	Please rate the ease of use of the on-line registration system for the TestFest
11	0-5	Please rate the quality of information provided by email after the close of registration
12	0-5	Please rate the quality of information provided in the on-line welcome pack
13	Text	What improvements do you think OMA could make to the announcements and registration to improve the effectiveness of the TestFests?
14	0-5	Please rate the support provided by the OMA staff in the setup and running of the TestFest
15	0-5	Please rate the effectiveness of the results gathering managed by the Trusted Zone
16	0-5	Please rate the quality of the hotels recommended by OMA for the TestFest Participants
17	0-5	Please rate the value for money of the hotels selected by OMA for the TestFest
18	0-5	Please rate the value of the sightseeing tour held on Sunday
19	0-5	Please rate the value of the social event held on Tuesday evening
20	0-1	OMA stop testing an enabler after it is Approved and it fails to test at 2 consecutive TestFests. Do you think OMA should continue to offer testing, and if YES please explain why?
21	Text	What is the single most important improvement that OMA should do to improve the TestFests for you and your company
22	0-5	Please rate the overall benefit to you and your company of attending the TestFest
23	0-5	Please rate the overall organization of the TestFest
24	Text	Do you have any other comments on this TestFest or the OMA TestFest program in general

TestFest Evaluations

TestFest-20	Person Commenting	Q	Comments Provided
7. General Comments about Lab/Test Room			
	2	7	WLAN Stability need improvements
	2	7	The rooms are fine
	10	7	Provide Test planning before the TestFest
	18	7	Excellent
	21	7	Its hard to find building
	22	7	Nameserver & DHCP for Testservers
	23	7	Better Air conditioning, it is usually very hot
	30	7	Really Good
13. OMA Improvements to Registration			
	2	13	Do not produce too much emails
	26	13	Need to more easily get a detail information
	27	13	Arrange pre-testing for servers with basic use cases before registration (DRM)
	30	13	Good
20. Reasons to Continue Testing			
	1	20	No
	2	20	No
	4	20	Yes - Not all new products use the latest DRM version
	7	20	Yes
	8	20	Yes
	9	20	Yes
	10	20	No - What do you mena by fails?
	18	20	Might be due to infrastructure/setup
	19	20	Let enablers to get one more chance to come with changes
	26	20	Very help us for being more compatable with other products
	27	20	Many companies offer products with different DRM version - both standards should be tested
	29	20	Because at some point maybe more people will register
	30	20	Yes - Useful to find problems and fix them. Meet people and have information
21. Single Most Important Improvement			
	3	21	Provide a better document search on the OMA web site
	4	21	Make TestFests mandatory for all those servers/clients who clima to be OMA compliant

TestFest Evaluations

TestFest-20	Person Commenting	Q	Comments Provided
	18	21	More Participation may be pro-active invitation
	19	21	Provide/invite more client/servers to participate. This will keep participants not to sit idle
	20	21	Sign code for session report should not e sent individually. Must be in an Excel sheet
	23	21	Better Communication of participants & agenda before event so can plan travel better (sometimes we spend a lot of time doing nothing)
	27	21	Make TestFests mandatory for all those servers/clients who clima to be OMA compliant
	28	21	Implement some sort of web-based results gathering so MS Excel is not required anymore (works poorly on Linux)
	30	21	We had too many test sessions. Test cases for which we didn't need a second client could be executed only once per server. Reports do not work on Linux ((Ubumtu)
	31	21	Maybe to have the OMA TestFest Enabler schedule sooner (not the most important thing)

18. Hotel Selected

2	18	Radisson SAS
3	18	Esplanade
4	18	Radisson SAS
5	18	Hotel am Hafen
6	18	Hotel am Hafen
10	18	Sorat
14	18	Holiday Inn
16	18	Holiday Inn
17	18	Sorat
19	18	Sorat
20	18	Marriott
21	18	Sorat
22	18	Esplanade
23	18	Holiday Inn Konigsallee
24	18	Holiday Inn
25	18	Holiday Inn
26	18	Marriott
27	18	Radisson SAS
28	18	Sorat
29	18	Asahi
30	18	Asahi
31	18	Asahi
32	18	Regina
33	18	Sorat
34	18	Sorat

24. Other Comments

TestFest Evaluations

TestFest-20	Person Commenting	Q	Comments Provided
	22	24	Just marketing for us
	2	24	Well Done!
	20	24	Some companies leave too early. Make it hard to the others
	27	24	3 PKI chains for DRM testing is a bit too much (Cormedia, Verisign, cmla)
	31	24	For IMPS it would be more efficient to test only once client A -server for the test cases that don't require client B
